February 20, 2004

An act to add Section 102336 to the Health and Safety Code, and to add Section 11174.85 to the Penal Code, relating to elder death.

LEGISLATIVE COUNSEL'S DIGEST

SB 1644, as amended, Romero. Elder death review teams: access to vital record information.

Existing law requires each death to be registered with the local registrar of births and deaths in the district in which the death was officially pronounced or the body was found. Under existing law, a local

registrar, deputy registrar, or subregistrar, who fails, neglects, or refuses to perform his or her duty as required by the existing law relating to the creation and maintenance of vital records, including certificates of death, is guilty of a misdemeanor.

Existing law requires the State Department of Health Services to implement an Internet-based electronic death registration system on or before January 1, 2005. Existing law authorizes each county to establish an interagency elder death team to assist local agencies in identifying and reviewing suspicious elder deaths. Under existing law, an oral or written communication or a document shared within or produced by an elder death review team, as well as certain communications and documents of a 3rd party provided to an elder death review team, is confidential. Existing law provides that the disclosure of information relevant to the work of an elder death review team by any individual or agency is intended to be voluntary.

This bill would require the local registrar of births and deaths in a county that elects to participate in the Internet-based electronic death registration system, upon the request of the chair, cochair, or any agent thereof, of a county elder death review team, to provide a report of ~~3~~ 4 pieces of information from death certificates. The bill would require the local registrar to comply with this requirement on or before July 1, 2005, or a reasonable time thereafter, but in no case later than December 1, 2005.

Under existing law, local registrars are required, upon request and payment of the required fee, to supply to any applicant who is an authorized person a certified copy, or to any other applicant an informational certified copy, of the record of any death registered with the official.

This bill would authorize an organization represented on an elder death review team to request and obtain copies of death certificates from the local registrar of births and deaths, subject to existing law confidentiality, disclosure, and fee requirements.

By expanding the definition of an existing crime with respect to the duty of a local registrar to provide reports, or copies of death certificates, pursuant to these provisions, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 102336 is added to the Health and
